School Bus Application

The school bus tracking application allows parents to track their children by accessing real-time school bus GPS location information.

We focus on

**Safety
and
Security**

**Real-Time
Updates**

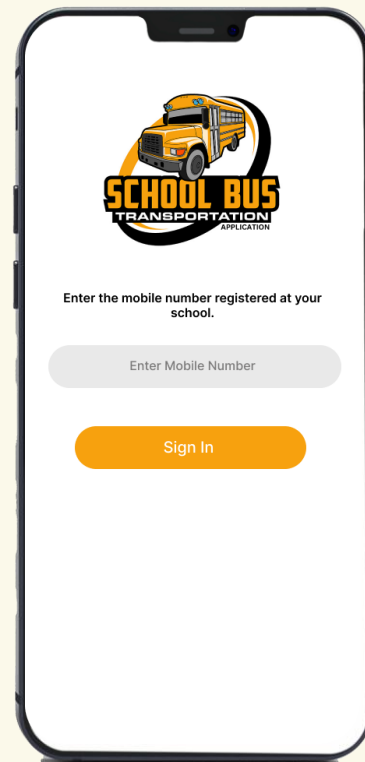

**Alerts
Parents**

To sign in to the application, Parents will need to enter the number that is registered at their children's school.

Sign In

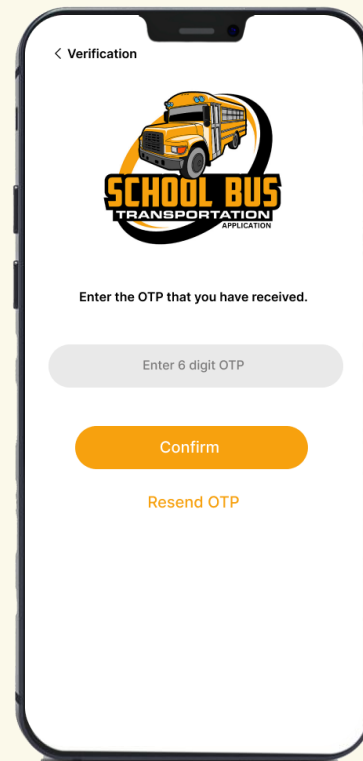

The image shows a smartphone screen with the 'SCHOOL BUS TRANSPORTATION APPLICATION' logo at the top. The logo features a yellow school bus. Below the logo, the text reads 'Enter the mobile number registered at your school.' There is a light gray input field with the placeholder text 'Enter Mobile Number'. Below the input field is an orange 'Sign In' button.

The application will verify the number by sending OTP (One Time Password) to the entered number.

Bus Information

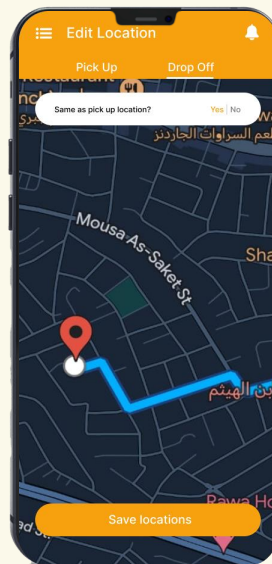

Set Location

Pick up location

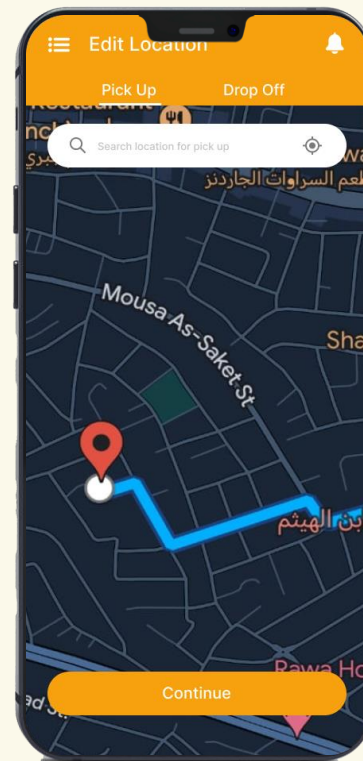

Drop location

Parents will have to set up pick up location just by searching the best place.

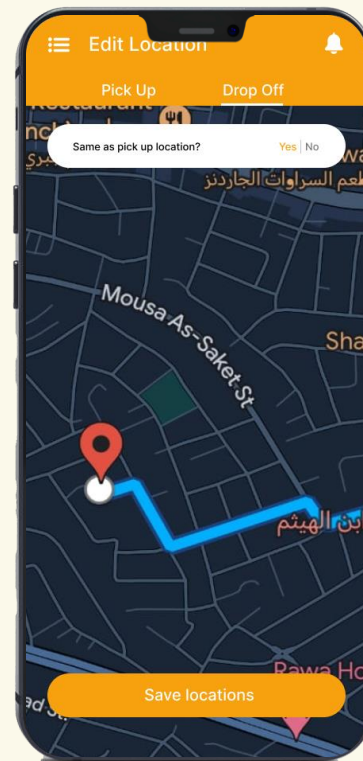

Pick Up Location

And the same way they will have to set the drop location.

Drop Location

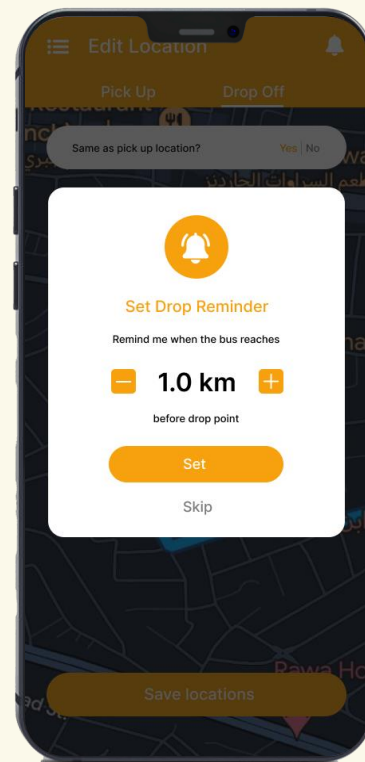

Set up pick-up and drop-off reminders.
Right after selecting a pick-up and drop-off location, a pop-up will appear to set the reminder.

Parents could set reminders about when the bus reaches certain distances.

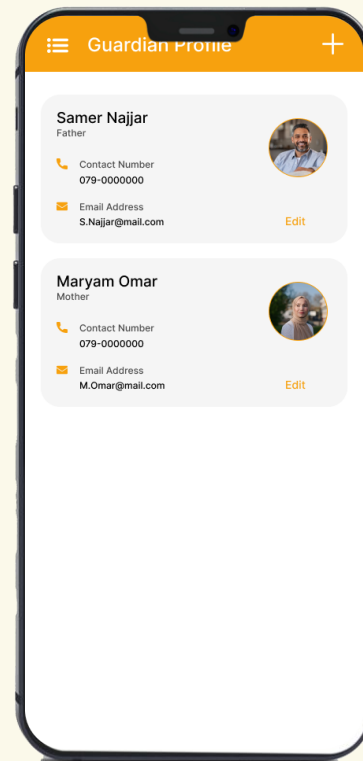

Reminder

Initially, there will be only one number registered with the application. But on this page, it can add more than one parent by themselves by simply clicking on the add button in the top right corner.

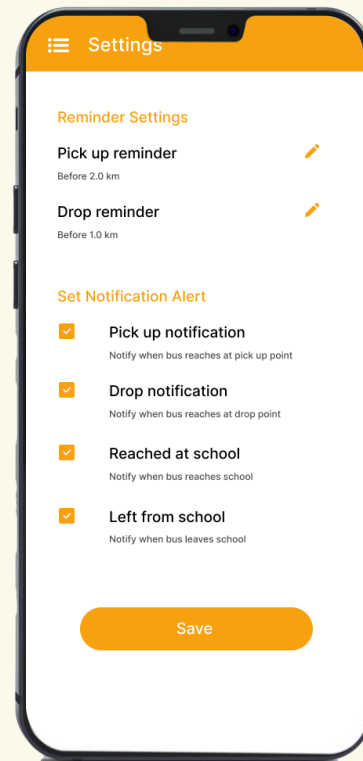

Add parent's profile

Parents can set pick up and drop off reminders from the settings page. As well as they can also customize the notification alert for different reminders.

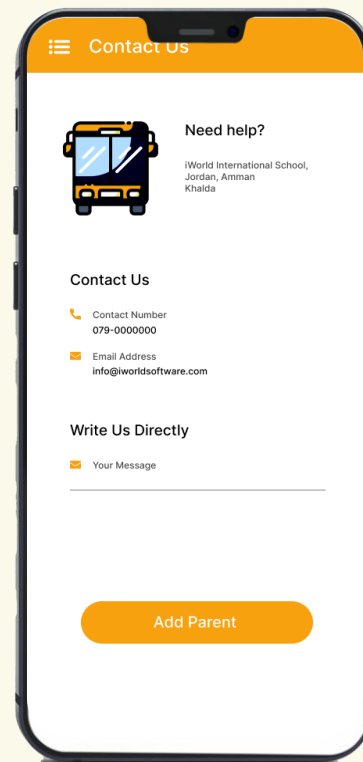

Settings

The Contact Us page allows parents to connect with the school management directly through call, mail or direct message.
